## PRODUCT SUBMITTAL CHECKLIST (P.S.C.)

**Please follow the steps outlined below before sending any product for testing.**

**1) Customer to submit applicable M.S.D.S. copies.**

We are required to review an M.S.D.S. for every product contemplated for submission.

**2) KCC will issue formal approval of acceptance after review.**

Kinematics will review the requested M.S.D.S. and advise the customer whether or not we can accept the subject product(s) for evaluation.

**3) Package the sample.**

Ideally, the amount of bulk powder to be sent should be about 30x-40x the weight of the largest required dose. Do not send more than 2-3 containers of each like size.

**4) Complete the data portion of this form.**

All fields are required. This is an interactive form. It may be filled-out on screen and the form subsequently printed.

**5) Enclose a hard copy of this completed form with your shipment.**

**6) Product disposal after testing.**

All materials will be returned to the customer freight collect after testing. We cannot guarantee that contamination of the original product has not occurred during our testing process. Therefore, returned material should always be considered unfit for further use, quarantined and properly disposed of.
